

# Bravo Series | BRX Compact UV Vacuum Line

## Compact UV Vacuum Line - Sanding, Vacuum Coating, UV Curing

### The Simple Solution to Finishing Mouldings

The BRX Finishing System is a complete compact finishing solution for finishing mouldings. This new BRX System incorporates Sanding/Denibbing, UV Vacuum Coating, and 4-sided UV Curing, all in one compact and economical design.

#### Sanding/Denibbing

The In-feed Conveyor is equipped with adjustable Sanding/Denibbing Units. These units are mounted on both the right and left side, as well as the top and the bottom, to allow for 360 degree sanding. Each unit is fitted with a series of abrasive strips, varying in grit and width, to match the type of sanding/denibbing required. Each unit has variable speeds to allow for sanding of both raw wood, light stain denib, and UV sealer sanding.

#### Vacuum Application

The BRX System utilizes a stainless steel Vacuum Coater to apply 100% solid UV coating materials. These coatings can be clear fillers, sealers and top coats, pigmented primers and top coats, and tinted UV sealers and top coats. Each Vacuum Coater is equipped with multiple Vacuum blowers, allowing the operator to control the mil thickness, even at higher speeds. The unique Application Chamber design allow for coating of 3 or 4 sides, as well as coating only select sides.

#### UV Curing Oven

The moulding enters the UV Oven directly after the UV Vacuum Coating application. The Curing Oven has a series of powerful UV lights that are positioned for the maximum UV Curing effect. A complete 4 sided curing area allows for the curing of all 4 sides, all in one pass.

	BRX-3	BRX-7	BRX-9
Max. Working Width:	8" (option 12")	8" (option 12")	8" (option 12")
Min. Working Length:	24"	24"	24"
Feed Speed:	30 - 100 FPM	30 - 180 FPM	30 - 220 FPM
Sanding Units:	3 (up to 6)	3 (up to 6)	3 (up to 6)
UV Curing Lights:	3 (1 bottom - 2 top/side)	7 (3 bottom - 4 top/side)	9 (4 bottom - 5 top/side)

### Features:

- Complete All-In-One System - Sand-Coat-Cure
- Durable and Environmentally Friendly Coatings
- No Extensive Permitting Required
- Fast Change-Over and Set up
- Dry Coating in Seconds
- 4-Sided Coating and Curing
